

Fullstack Developer (m/f)

We are a fast-growing Start-Up technology company (Gründerszene). What began as a university project in Karlsruhe, went on to win HackFwd's Pitch (Techcrunch) and then Seedmatch. Now we are based in Cologne and our team of 20 Honestly colleagues shares the vision of becoming

"The most valuable channel of communication between companies and their customers".

Our software solution enables companies to contact their customers after receiving anonymous feedback given on smartphones or terminals, enabling them to analyse this data and react to it.
